

Bhargav Patel

Senior Full Stack Software Engineer

bhargavpatel.dev@gmail.com | +91 9016621598 | Ahmedabad, India

Professional Summary

Full Stack Developer with 7+ years of experience building scalable, high-performance web applications. Specialises in .NET Core, Angular, React, and Azure Cloud Services, with a strong foundation in monolithic and microservice-based architectures. Currently upskilling in Generative AI (GenAI). Passionate about clean, maintainable code — effective both as an Agile team member and as an independent contributor owning features end-to-end.

Technical Skills

Backend	C#, .NET Core, ASP.NET MVC, REST APIs, GraphQL, Entity Framework, LINQ, Dapper, ADO.NET
Frontend	Angular, React, TypeScript, JavaScript, Redux, HTML, CSS, jQuery
Cloud	Azure Functions, Logic Apps, Web Apps, Azure SQL, Service Bus, API Management, Data Factory, Azure Key Vault
Database	MS SQL, Elasticsearch, Kibana
DevOps	Azure DevOps (CI/CD), Docker, Git
Architecture	Microservices, Monolithic, CQRS, Event-Driven, SOLID, Singleton, Factory, Chain of Responsibility
Security	MSAL, JWT, OAuth 2.0, Two-Factor Authentication
AI / Innovation	Generative AI (GenAI) — actively learning & upskilling

Professional Experience

Senior Software Engineer

Globant

Apr 2025 – Present | Ahmedabad, India

- Working on core product development using .NET Core and Angular.
- Integrated Elasticsearch for advanced search and high-performance data retrieval.
- Leading the technical team — task assignment, sprint planning, code reviews, and mentoring.
- Ensuring best practices, quality standards, and timely delivery of product features.

Senior Software Engineer

Bacancy Technology

Sep 2023 – Mar 2025 | Ahmedabad, India

- Leading the development of robust applications using .NET Core, MVC, Azure, and Angular.
- Collaborating with international clients as an outsourced/contract developer to meet their technical and business requirements.
- Ensuring high-quality deliverables by actively participating in code reviews and following best practices.
- Implementing scalable architectures and optimizing application performance for enhanced user experience.
- Ensuring quality deliverables and participating in agile processes.

Senior Software Engineer

Gateway Group of Companies

May 2022 – Sep 2023 | Ahmedabad, India

- Developed web applications using React, Azure, and .NET Core.
- Collaborated with clients and teams to deliver high-quality software solutions.
- Participated in agile processes, including sprint planning and daily stand-ups.

Senior .NET Developer

The One Technologies

Jul 2021 – Apr 2022 | Ahmedabad, India

- Handling a team with few members, taking responsibility for task creation, sprint planning, task assignment, etc.
- Work with .NET Core technologies and later migrate with the latest release version.
- Developed RESTful APIs using .NET Core and consumed them in front-end applications.
- Integrated third-party APIs for payment processing and email services.
- Improved application performance by optimizing SQL queries and implementing caching strategies.

Junior .NET Developer

Variance InfoTech Pvt Ltd

Jan 2019 – Jul 2021 | Ahmedabad, India

- Understand and manage all aspects of development, such as portability, design flow, and integration.
- Proficiently solving problems that developers face in everyday circumstances.
- Effective teamwork, testing, and tracking of bugs.

Key Projects

Explorer+ – Kantar (Apr 2025 – Present | Team: 9)

Advanced consumer insights and data exploration platform enabling insights professionals and marketers to search, filter, and analyse large-scale research datasets. Leveraged Elasticsearch for high-performance faceted search across millions of data points, built on a microservice architecture with Azure cloud services.

Tech: .NET Core, Angular, Azure, Elasticsearch, MSSQL

PowerShop – Hitachi Energy (Jul 2024 – Mar 2025 | Team: 25)

An eBusiness platform enabling customers and partners to manage all digital interactions from product selection to final delivery.

Tech: C#, MVC, Web API, Angular, MSSQL

Classic Parts (May 2022 – Sep 2023 | Team: 6)

Worldwide genuine Ferrari parts platform with 28,000+ inventory lines and worldwide shipping.

Tech: C#, MVC, Web API, React JS, Azure, MSSQL

SimpleTix (Aug 2021 – Apr 2022 | Team: 6)

Premier ticketing and registration solution for live events with timed entry, contactless scanning, foot traffic control, and contact tracing reports.

Tech: .NET Core 3.1, C#, Angular, Entity Framework, MSSQL

Dental Database System (Sep 2020 – Jul 2021 | Team: 4)

Nationwide US dentist database with location-based search, customisable reports, and Excel export.

Tech: React JS, Node.js, C#, MVC5, Web API

Dental CRM – RecordLinc (Jan 2019 – Jul 2021 | Team: 5)

Online dental management system enabling electronic referrals, patient record transactions, and pre-visit form submissions.

Tech: C#, MVC5, Web API, Windows App & Service, MSSQL

Education

Bachelor of Engineering

Gujarat Technological University | 2014 – 2018
